EDUCATION

2023 - Current

DAFODIL INSTITUTE OF IT

- Bachelor of Science

SKILLS

Languages & Frameworks
- Python (Django, Django REST Framework) – E-Card Studio
- JavaScript (ES6+) – All frontend & React projects
- React.js + Vite – React World Tour
- HTML5 & Advanced CSS3 (Animations, Flexbox, Grid, Glassmorphism) – E-Card, Fluid Hover, Cursor Effects

Backend & Databases
- Django ORM, Models, Views, Templates, Authentication – E-Card Studio
- SQLite & PostgreSQL – E-Card Studio
- RESTful API design & consumption
- Image processing (Pillow), QR code generation, Excel/CSV export (openpyxl) – E-Card Studio

Frontend & UI/UX
- Responsive & Mobile-First Design – All projects
- Custom Animations & Micro-interactions – Interesting Cursor Hover, Fluid Hover
- Dynamic Data Filtering & Real-time Search – Dupno Table Filter
- Form Validation & User Input Handling – Dupno Payment, E-Card

Tools & Workflow
- Git & GitHub (Version Control, Branching, PRs) – 20+ repositories
- Project Management & Task Tracking
- Deployment (GitHub Pages, Gunicorn + Nginx configuration) – E-Card Studio
- README writing & Project Documentation

Soft & Professional Skills
- Backend + Frontend Development (Full-stack capability)
- Creative Problem Solving
- Team Collaboration & Code Reviews
- Time Management & Meeting Deadlines
- Attention to Clean Code & Pixel-perfect UI
- WordPress Customization (Previous experience)
- Machine Learning Basics (Interest & self-learning)
- Active Listening & Quick Learning

LANGUAGES

- English (Fluent)

PROFILE

Junior Full-Stack Web Developer | Python-Django & Modern Backend
Hands-on Junior Full-Stack Developer with over 2 years of real-world impact at Dupno, where I independently architected and launched MY-Card (**https://mycard.dupno.com)** — a production-grade, user-facing digital business card platform trusted by hundreds of professionals across Bangladesh. Excel at delivering end-to-end solutions using Python/Django (authentication, admin dashboards, QR generation, secure data pipelines) and crafting engaging frontends with React, JavaScript (ES6+), and advanced CSS animations. Currently pursuing B.Sc. in Computer Science & Engineering at DIIT while consistently pushing production-quality code through an active portfolio of 20+ projects.
GitHub: **https://github.com/Ehasan07**
Known for shipping fast, writing maintainable code, and turning ideas into live products that people actually use.

WORK EXPERIENCE

Dupno   2023 - PRESENT

Junior Web-developer

- Designed, developed, and deployed mycard.dupno.com, a fully functional digital business card platform serving real users, handling the complete development lifecycle from concept to production.
- Built and maintained multiple responsive, production-grade web pages using Python/Django, HTML5, CSS3, and JavaScript.
- Implemented backend features including user authentication, database models (PostgreSQL/SQLite), dynamic content rendering, and secure file handling.
- Collaborated with the team to enhance UI/UX, optimize performance, and ensure cross-browser compatibility and mobile responsiveness.
- Integrated third-party APIs and managed live deployment workflows (including server configuration and updates).
- Actively participated in code reviews, debugging, and continuous improvement of existing systems, strengthening problem-solving and teamwork skills.

Key Achievement:
- Successfully launched and maintained **mycard.dupno.com** — a live, user-facing product built end-to-end by me.

PERSONAL PROJECTS

- **MY-Card™ experiences**
  -Full-stack Django platform | Card builder, QR generation, admin panel, data export
  -https://github.com/Ehasan07/E-card
- **Interesting Cursor Hover**
  -Custom animated cursor with particle effects | Pure CSS + JS
  -https://github.com/Ehasan07/interesting-cursor-hover
- **Fluid Hover Effects**
  -Liquid-style smooth hover animations | Vanilla CSS + JS
  -https://github.com/Ehasan07/fluid-hover
- **Dupno Table Filter**
  -Real-time searchable & filterable data table | Vanilla JS
  -https://github.com/Ehasan07/Dupno-table-filter
- **Dupno Payment Prototype**
  -Secure payment form with validation | HTML/CSS/JS
  -https://github.com/Ehasan07/dupno-payment
- **Alphabet Typing Game**
  -Educational typing game with timer & score | Pure JavaScript
  -https://github.com/Ehasan07/Alphabate-game
